Enc.

From

Dr. B. Mahomed Usmon, L.M.S.,
Senior Surgeon in Mysore,
Bangalore.

To

The General Secretary to the Government
of H.H. the Maharaja of Mysore,
Bangalore

Sir,

With reference to Government Order No.G. 6099-100/-Med. 105-26-2, dated 4th December 1926 sanctioning the deputation of Mr. F.Noronha Superintendent, Mental Hospital, Bangalore, to the Indian Science Congress at Lahore, I have the honour to report that he handed over charge of his duties to Mr. S. Narayana Rao, Superintendent, Medical Stores, on the afternoon of 27th December 1926, and resumed charge on the afternoon of 14th January 1927. A copy of the report

Report on the deputation of Mr. F. Noronha, to the Indian Science Congress at Lahore.

The fourteenth Indian Science Congress was held at Lahore from the 3rd to 8th January 1927. It commenced with a garden party and reception given by Mian Sir Mahomed Shafi, K.B.E., K.C.S.I., C.I.E at 4 P.M. on the 3rd instant at which the delegates from all parts of India about 400 in number were present. At 6 P.M. the Presidental address was delivered by Sir J.C.Bose , Kt., C.S.I., C.I.E., at the university hall which was crowded with delegates as well as the general public. The address referred particularly to the investigations made by Sir Jagadis Bose, into the machanisim of the life of the plant, which have led to the important generalisation of Unity of Life, unity of all human efforts and powerful influence of mutual aid and co-operation in the scheme of life.

The business proper of the Congress commenced on Tuesday the 4th instant, when the different sections met in different parts of the University buildings for the reading of papers and discussion thereon. I was called upon to read my paper early on the forenoon of the first day and in introducing me to the section, the President of the section, Lt. Col. Berkeley Hill, I.M.S. welcomed the presence of another phsychiatrist, into the deliberations of the section, which hitherto consisted mainly of academic psychologists. As the audience consisted of non-medical, academic psychologists, the discussion on my paper related to the application of the current theories in pyschology to the problems of insanity. The concluding remarks by the Chairman were to impress the fact that every mental patient aims at "Curing himself" and his actions have to be interpreted as attempts to seek self satisfaction of pleasure and avoid pain. The address of the sectional president, Lt.Col. Berkeley Hill, I.M.S. was, as was to be expected from a psychiatrist, a stirring appeal for provision of wider and better facilities for the treatment of mental disorders, for the institution of a department of mental Hygiene and the promotion of increased interest both among laymen

laymen and medical men in general, in questions pertaining to mental health. The meetings of the section were continued on Wednesday and Thursday from 10 A.M. to 1 P.M.

On Thursday afternoon there was a Science Conversazione, at which the latest developments in the different branches of science, were demonstrated in the well-equipped laboratories of the Punjab Universi

Friday the 7th instant was set apart for excursions and I took the opportunity of visiting the Government Mental Hospital and the Punjab Central Jail at Lahore. The state of affairs in the Mental Hospital, I regret to say, did not come up to my expectations. There are nearly 800 patients, all males (the females being accommodated in a separate institution) and the accommodation provided is of a modern type. But the general aspect of the institution is very depressing, no attempt being made to give it a cheerful and inviting character, This is due to the high mud walls intersecting the different sections of the institution, more attention being paid to the protective than to the relieving and cheering aspect of the treatment. The wards were not particularly clean, the clothing and bedding provided for patients was coarse and meagre, and on inquiry I learnt that the occupational side of treatment was not much developed. On the whole I was disappointed, as the condition of the patients contrasted unfavourably with what obtains in our institution here despite our structural shortcomings.

The Punjab Central Jail is better managed than the Mental except that it is over-crowded to an unpleasant extent.

As the sectional meetings of the Psychology section had concluded on the 6th instant. I left Lahore on the 8th and reached Bangalore on the 14th instant.

sd. Frank Noronha.
Superintendent,
Mental Hospital.

17th January 1927.

"Copy."
